

Instructions for preparing your computer for the course:

Please read the following sections below.

In this course, there are two exercise sessions where we will illustrate models and do some real data analysis. For this, we will use the statistical programming environment R together with RStudio.

Install R:

<https://cran.rstudio.com>

Install RStudio:

<https://www.rstudio.com/products/rstudio/download/#download>

If it is first time for you using R, it is strongly recommended that you familiarize yourself with R using some introduction material, such as [A short R tutorial](#) by Steven M. Holland.
